

MS10ATA/PE9BL

Choose A9 Cut Level and Choose the Fit

APPLICATIONS

Food Processing
High Cut Hazards
Direct Food Contact
Retail Meat & Deli

FEATURES

For severe cut hazards choose the Claw Cover MSATA/PE9BL sleeve; its A9 cut level is the highest on the ANSI scale. Then choose from three widths to get a comfortable fit. Color coding at the wrist indicates the size: red for Narrow, yellow for Standard, green for Wide. The overedge color at the sleeve top and bottom indicates the cut score. With ANSI 4 abrasion resistance, you also get long wear life and excellent value. The MSATA/PE9BL is compliant with FDA 21 CFR and appropriate for food manufacturing and processing. Machine washable for repeat use. Made in the USA.

ATTRIBUTES

STYLE	10 Gauge Seamless Knit
ANSI CUT	A9
ANSI ABRASION	4
SIZES	18" Narrow, Standard, Wide
