

500

Outstanding Dexterity and Gripping Power

APPLICATIONS

- Automotive Industry
- Metal Fabrication
- Paint Rooms
- QC & Inspection
- Handling Small, Sharp Parts
- Appliance Manufacturing
- Electronics

FEATURES

Combine the quality and cut protection of ATA® performance engineered gloves with the unbeatable dry grip of a polyurethane palm coat and you get the best choice for applications that demand touch sensitivity – like handling small, sharp parts. ATA® fiber technology provides ANSI A3 cut resistance in a light weight, 13 gauge design. Adding Lycra® to the knit delivers outstanding stretch for a comfortable, precision fit. Benefits of the polyurethane palm coat are many: Outstanding dry grip that doesn't get sticky or tacky. Polyurethane stands up to oils, solvents, greases and gasoline. And its low particulate shed makes 500 gloves ideal for paint rooms and other operations where contamination is a concern.

ATTRIBUTES

STYLE	Seamless Knit with Coated Palm
GAUGE	13 g. Light Weight
ANSI CUT	A3
ANSI ABRASION	3
SIZES	XS / S / M / L / XL / XXL
FIBER CONTENT	ATA® Fiber with Polyurethane Coating
