

# M500

Comfortable and Form Fitting for Long Wear

## APPLICATIONS

Metal Fabrication  
Use as a Liner Glove  
Automotive  
Aerospace  
Appliance Manufacturing  
Small Parts Assembly  
Quality Control & Inspection

## FEATURES

Comfortable enough for long periods of use and an ANSI level A3 cut rating make our M500 glove the perfect choice for dozens of industrial applications. The light weight, 13 gauge seamless design is constructed using our exclusive Advanced Technology Armor® (ATA®) performance engineered yarns, with Lycra® fibers for a great fit. Some say it's the ultimate 13 gauge cut resistant glove.
