

MATA-ULTRAHV013A

ATA® ULTRA Light Weight Dexterity, High Cut

APPLICATIONS

- Automotive
- Metal Fabrication
- Small Parts Assembly
- Glass Handling
- Construction
- Appliance Manufacturing
- Aerospace

FEATURES

Ounce for ounce and dollar for dollar, new ATA® ULTRA products last longer. Even more remarkable, the ultimate in abrasion resistance is just the first of many significant improvements. Light weight, 13 gauge MATA-ULTRAHV013A gloves deliver ANSI level A4 cut resistance plus the dexterity and fingertip sensitivity many tasks demand. The gloves are lined with STA-COOL® to wick away moisture for dry, comfortable hands. The high visibility orange color helps keep wearers and co-workers alert, reducing the chance of accidents. Comfortable seamless design, ambidextrous, easily washable – all the benefits you expect from the ATA® brand are included in ATA® ULTRA featuring Twaron. Made in the USA.
