Cut Protection and Premium Comfort

WITHOUT THUMBHOLE

WITH THUMBHOLE

PREMIUM HOOK-AND-LOOP CLOSURE

APPLICATIONS

Automotive Assembly
Metal Fabrication
Glass Plants
Material Handling
Parts Assembly
Manufacturing

FEATURES

Our newest cut resistant sleeve is big on comfort, even for workers who have big arms. At the top of the arm, a V-slot with premium hook-and-loop closure provides a custom fit. To give you a light weight, 1 ply sleeve that delivers substantial ANSI A4 cut protection from the shoulder through the cuff, we developed a new fiber blend featuring ATA® Ultra technology and HPPE plating. This design also feels cool and comfortable against the skin. Good abrasion resistance and machine washability mean a long product wear life. The high viz orange color helps to increase safety awareness for both the wearer and co-workers. Available with and without thumbhole. Made in the USA.
