Big on Cut Protection and Comfort for Big Arms

WITHOUT THUMBHOLE

WITH THUMBHOLE

WIDE ELASTIC BAND

APPLICATIONS

Appliance Manufacturing
Automotive
Metal Stamping
Paper Manufacturing
Plastics and Molding
Public Utilities

FEATURES

A favorite of workers with brawny arms, the MS2X1HAC sleeve delivers powerful ANSI level A4 cut protection plus all day wearability. What they'll see on the outside is Worldwide's strong, durable ATA® Hide-Away™ fiber technology. What they'll feel is a soft inner lining of natural cotton that keeps arms cool and dry all through the day. Provides moderate heat protection, too. The MS2X1HAC sleeve is designed with a looser fit that makes it easy to layer over a shirt sleeve, plus a wide stay-up elastic band that holds the sleeve comfortably up over the bicep. A bonus benefit: Hide-Away fiber means this sleeve washes easily, hides dirt and stains for a longer overall wear life. Made in the USA.
