

PJ145SP-1-TH

High Tech Protection and Easy On/Off

APPLICATIONS

Glass Manufacturing
Metal Fabrication
Automotive
Construction
Food Processing
Industrial Manufacturing
Security/Law Enforcement

ATA® Prevent Wear™ pullovers are made from extremely strong, high performance fibers to deliver significant upper body protection. For easy on/off and wearer comfort, the PJ145SP-1-TH pullover features a zippered opening at the neckline. High risk areas of the body get special attention. Across the abdomen, specially reinforced knit is rated ANSI A6 for high cut hazards. The collar and forearms feature ANSI A5 knit for medium to heavy cut hazards. And ANSI A4 knit in the upper chest, biceps and back for medium hazards. Prevent Wear garments are purposely long, extending protection to the groin area. Thumb holes in the cuffs help keep the sleeves comfortably in place. Machine washable for long wear life.

FEATURES

- 1/4 zipper at neckline for casual, sportswear styling
- Reinforced belly and forearms
- 3/4 mesh back releases body heat, increases comfort
- Machine wash in cold water, dry on low heat
- Made in the USA
